Lyric Animation

Sakowitz alone in all the world offers this Limited Edition after the Second Century A. D. Flying Horse of Kansu, China. It is recognized as a flawless example of rhythmic animation in an art form. First brought to the Occident in bronze by the Times of London, the Horse inspired the Times' Chairman to commission this superlative piece to be cast in 18 Carat green gold. Originally sculpted by Mary Bryning and cast by Christopher Walton in England, this hallmark edition of the Worshipful Company of Goldsmiths is one of the largest single gold castings ever attempted. The Horse, 17″ in length is 7¼″ tall exclusive of base. The body and base are hollow; the legs solid gold. A unique and most limited collector's item.

The famous Flying Horse of Kansu is offered in a handmade presentation case. At your request we will supply a presentation base in marble onyx, leather suede, heavy black plastic, black marble or malachite. **0201 25,000.** *Pieces subject to prior sale.

*To be shipped freight collect.
